THE DRESS THAT FITS

U. S. DEPARTMENT OF AGRICULTURE
CURRENT SERVICE

JAN 26 1939

U. S. DEPARTMENT OF AGRICULTURE

*A 16-mm. natural-
color movie with
sound. Running
time, 18 minutes.*

This film shows the fitting points to check when buying ready-made dresses and demonstrates how alterations may be made successfully at home by women who sew.

Some of the most commonly needed alterations for the tall-slender, the medium-stout, and the short-plump types of figures are illustrated. One dress for each figure type before and after alterations is pictured along with the main steps in making the alterations on each dress. The film is especially designed for extension workers, teachers, and groups of women interested in knowing what constitutes a good fit and how to achieve it. The film was produced by the Bureau of Human Nutrition and Home Economics and the Motion Picture Service of the U. S. Department of Agriculture.

How to Borrow the Film

The film is available for loan from the film libraries listed on the back of this folder.

Address all requests for booking to the film library in your State, giving the date or dates on which film will be used.

Make requests as far in advance of show dates as possible.

Borrowers are usually required to pay transportation charges both ways, plus a small service charge for use of the film. U. S. Department of Agriculture employees and State and county extension workers may borrow the film for official use without charge other than transportation costs.

How to Buy the Film
